About Student labs

ICT Computer Training consists of students' computer laboratory on both Kwa-Dlangezwa and Richards Bay campus. Both of these campuses have a dedicated computer studios reserved for all registered students.

Kwa-Dlangezwa Campus has HP Lab has three studios & Block-B has four studios & a dedicated Helpdesk reserved for students. We also have nine departmental computer labs reserved for departmental student's computer needs.

Computer labs at Richards Bay Campus consist of four computer studios.

Our Aim

1. To support the university's strategic goals, including improving the quality of graduates through developing essential graduate competencies;
2. To improve the student learning experiences both on-campus and off-campus
3. Support innovative and transformation in classroom and off campus practices and curricula.
4. To address transformation imperatives and close equity gaps.

What services can you access while studying remotely?

This booklet will briefly outline the student services that undergraduate and postgraduates' students can access while studying remotely.

- **Outlook – Office (student email)**
- **Access to Office 365**
- **OneDrive**
- **eLearning (Moodle)**
- **Student records (ITS iEnabler)**
- **How to Log a call**

Activate Microsoft 365

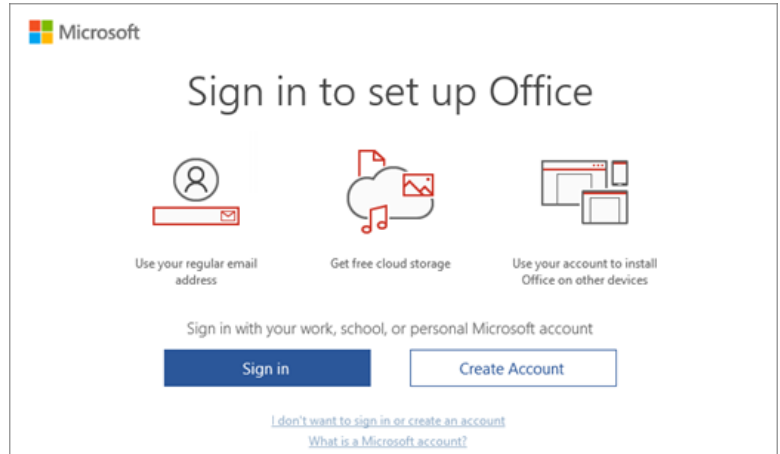

When you start an Office app that's not activated, **you'll be prompted to sign in to Office**. Be sure to sign in using the Microsoft 365 account.

Click Sign in and continue with the setup until the last step.

Note: You use your Unizulu email to activate Microsoft Office 365

Username: studentnumber@stu.unizulu.ac.za

Password: **Your Unizulu password**

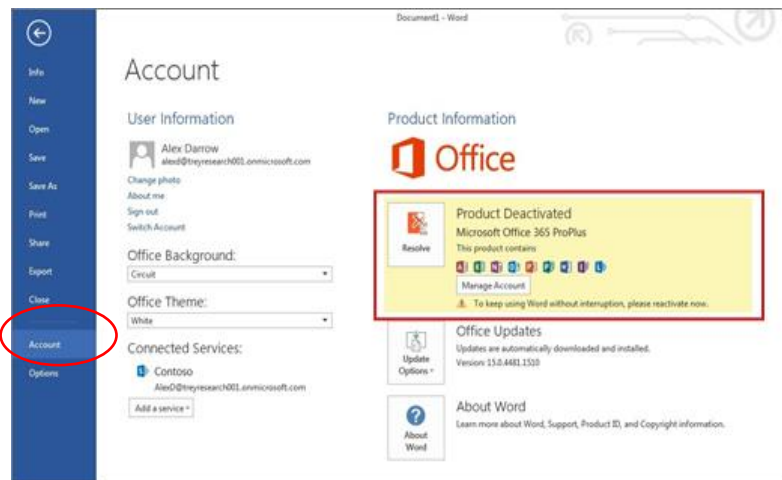

To check if your Account is activated

Open your Word application

Click **File** > Then select **account tab**

Under **Product Information** (You should see if your Office is activated)

If not: Click on resolve to activate

Note: Your laptop should be connected to WiFi/Internet for office activation.

Benefits of using Microsoft Office 365

Microsoft Office 365 includes familiar software such as Word, PowerPoint, Excel and OneDrive. These can be installed on three devices (e.g. laptop, tablet, smartphone). With fully installed versions of these Office desktop apps, you can even work on documents when you're offline.

Word

Excel

PowerPoint

Outlook

OneNote

SharePoint

OneDrive

Microsoft Teams

OneDrive

OneDrive is a place where you can store, sync your Unizulu assignments and share your work files. As part of Office 365, OneDrive lets you update and share your files from anywhere and work on Office documents with others simultaneously

it gives you 1TB of online storage: With Office 365, you have the perfect place to store all your personal files. All your files will be stored online, which means that you'll be able to access them anytime, anywhere, by logging in to your 365-account using your Unizulu e-mail address and password.

Microsoft Teams

Microsoft Teams has been designed as a full-fledged messaging app, focusing on organizing tasks, initiating **team** conversations, sharing content, and more. With **Microsoft Teams** download, you can set up video conferences with anyone remotely. Login using your Unizulu email.

How do I start using Teams?

Any actively enrolled student or currently employed staff or faculty member can create their own Teams. To get started:

1. Download Teams for your desktop, iOS, or Android, or just use Teams on the web at <https://teams.microsoft.com>

Sign in with your UNIZULU AD account and password **Note:** You use your Unizulu email to activate Microsoft Office 365

Username: studentnumber@stu.unizulu.ac.za

Password: **Your Unizulu password**

eLearning (Moodle Access)

Please note that the Moodle platform has been updated for the 2021 academic year. Your courses from the academic 2021 academic year can now be accessed through the link below and select your faculty on the right menu option.

Link: <https://learn.unizulu.ac.za>

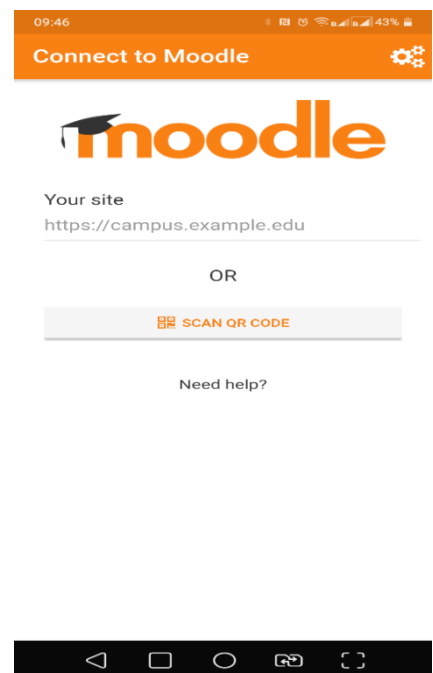

Access on your Moodle Mobile device

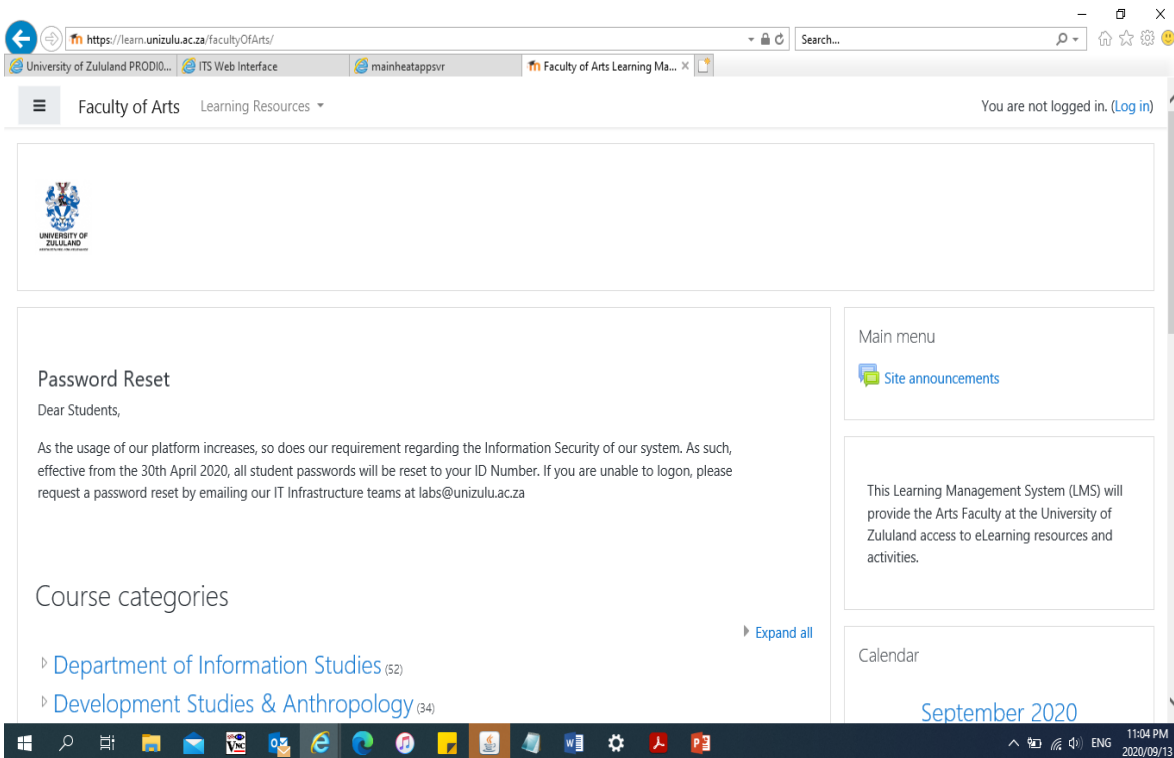

All registered students using Moodle (LMS) can access their Unizulu courses via Moodle App on their mobile device.

The student will login using their Faculty LMS link.

You can download the Moodle App from the [Google Play](#) or [App store](#).

Moodle URLs

Below are the links for Moodle per faculty based on the modules you are doing.

Faculty of ARTS LMS: <https://learn.unizulu.ac.za/facultyOfArts/>

Faculty of SCIENCE LMS: <https://learn.unizulu.ac.za/facultyOfScience/>

Faculty of COMMERCE LMS: <https://learn.unizulu.ac.za/facultyOfCommLaw/>

Faculty of EDUCATION LMS: <https://learn.unizulu.ac.za/facultyOfEducation/>

Note: You use your Unizulu Student number and AD password to access LMS

Username: Student Number

Password: Your Unizulu password

ITS iEnabler Access

iEnabler allows all current students/alumni to log in to access their UNIZULU information online. Students can use iEnabler to access **academic record, financial statement, Results and Residence Application**. Students are required to use 5 digits PIN they were given during Online Registration.

Requesting & Managing your password

You can manage password changes at Password Self-Service:

All registered students in 2021

- Will have their unique password send to their emails and via SMS
- Should you fail to get it kindly log a call at Student Labs Helpdesk

Password regulations

When choosing a password, please adhere to these requirements:

- Your password must be at least 14 characters long, with no spaces.
- Your password is not case sensitive.
- Your password can include a mix of letters, special characters and numbers.
- Your password cannot include text that is easy to guess – such as "123", "abc" or your Unizulu username.
- You cannot use a password that you have used in the past.

Your password is critical for your access to almost majority of Unizulu services:

- Do not share your password with anyone.
- Protect your password in the same way as you would your bank card PIN.
- Never allow other people access to your email or network account - because you are liable for any email sent using your email address.

Software Installation request on your devices

Some of the software available to students includes the following applications:

Antivirus Support

Symantec Endpoint Protection

Statistical analysis:

SPSS

Nvivo

MATLAB
