

# INVITATION

## UNIZULU LIBRARY SERVICES

### Britannica Academic Webinar 2023

The UNIZULU Library in collaboration with Britannica Academic invites you to the [Britannica academic](#) platform webinar.

**Date: 01 March 2023 – Time: 11:00- 12:00**

This session will cover the [Britannica academic](#) and [ImageQuest](#) platform demonstration.

[Britannica Academic](#) allows users to browse over 12 core topics including, sciences, math, languages, and technology. When users click on a specific topic, such as science, they will be presented with further subtopics from that field, and related articles, biographies, and medium content. This function allows for students to quickly find content relevant for their subject.

[ImageQuest](#) draws on image libraries from the likes of Getty and the National Portrait Gallery to provide high-quality, trustworthy images for faculty and students. Every photo and illustration are fully referenced with metadata information, including the source, the rights holder, caption, and keywords.
